# THE GARLIC TWIST

designed and manufactured in california

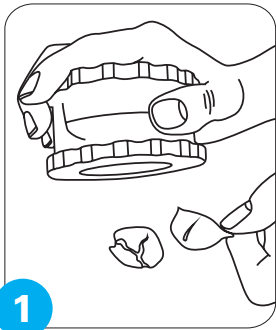

Winner of an unprecedented six industry awards, the Garlic Twist is the simplest and most functional garlic tool available, and unlike a garlic press, does not smash or waste any garlic.

Consisting of just two parts, with carefully designed cross-cutting teeth to do the hard work for you, the Garlic Twist makes it easy to get perfectly minced garlic in seconds.

rated 2009 top ten gadgets by

Hold the Garlic Twist logo side down. Whack cloves twice to loosen skin.

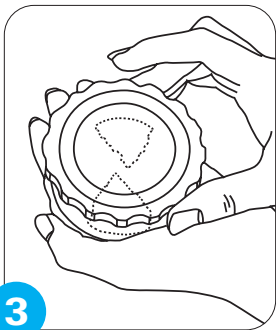

Place cloves inside and twist back and forth, mincing garlic to desired texture.

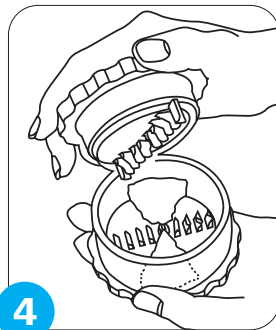

**Best Seller Guarantee!**

If your store displays the Garlic Twist prominently, we guarantee it will be a best seller. If you are in any way not satisfied with sales after giving the Garlic Twist a fair shot, NexTrend will take them back and credit your account with a full refund, including shipping. A store has yet to request a refund after seven years and we're certain you will be very satisfied by how the Garlic Twist sells, and sells, and sells.

Swivel top unit back and forth, gathering minced garlic into two neat triangles.

Ensure minced garlic is free of mincing teeth. Open, remove minced garlic and enjoy!
